MISSION AND VISION

MISSION

Our mission is to be a leader in manufacturing and distribution of raw materials for surface coating industry and expert support services to the surface coating industry and other industries that consume our products globally.

These can be achieved by

COMMITMENT

We commit to achieving leadership positions in terms of market share, technology and cost. By creating, marketing, production and selling surface coating related products which fulfill a useful purpose in society. Generate maximum value for our customers in selected market segments, namely Coatings and Materials.

PURPOSE

- To maximize shareholder value.
- To maximize customer satisfaction.
- To secure continuity of our business via sustainable growth and innovation.
- To be a responsible partner to our stakeholders and the communities in which we operate.

VISION

To have a leadership position in our chosen business segments in terms of cost, technology and market share. To form one big team of highly energetic, competent, entrepreneurial and internationally oriented people who work as one to achieve our common goals. To be highly respected in our markets and our communities in which we have an association.

VALUES

On what values are our mission and goals based?

People Oriented Approach it is Important to Us That We :

- Have a working environment that Inspires and Motivates our employees.
- Train our team members to enhance their competency to achieve our common goals.
- Have a Transparent Organization with clearly defined tasks, powers and responsibilities
- Propagate an Entrepreneurial Team Spirit in line with company's vision.
- Empower and manage our people in such a way that their potential is used to the full.

Safe and Clean Working Environment, So Each One of Us Aims for:

- Zero accidents, No health hazards attributable to MPD Coating Resins' activities
- No undue burdening of the environment.

Customer Oriented Approach Customers Justify Our Existence

- Therefore we shall have complete approach towards customer satisfaction as one of our top priorities and try to deliver more than the customers expectation in way of quality and service.
- We set High Standards for ourselves and others Our communications are aimed at Maximizing
- Commitment and understanding. Integrity and Professionalism should be an integral part of all of our business functions.
- We respect and welcome the Opinions of Others.
- We are Responsive to Colleagues, customers and society.
- We keep our promises and Meet Our Commitments.
- We continually build on Each Others strengths and help each other to overcome and eliminate weaknesses.

ACTIVITIES

The activities at MPD are grouped into three divisions : **Resins, Oleo Chemicals, Oils**

RESINS

The resins activities are focused mainly to serve the Coating Industries, Printing Industries and the Adhesive Industries. The ever changing needs of the resin industry is the driving force for us to make customer specific products as per their final application needs.

MPD is one of the India 's leading supplier for coating Industry. We specialize in manufacturing technologically sophisticated high quality products that are tailor- made to meet customer's performance criteria. The products are used for various end use markets like Paints, Printing Ink & Adhesive Industries. We are constantly developing new products to make more eco friendly products.

OLEO CHEMICALS

Fatty acids of various kinds and Glycerin manufacturing are one of the major activities at this facility. The products are used for wide variety of application like surface coating, leather chemicals, pharmaceuticals, soaps, cosmetics etc.

OILS

At MPD we cater for all kind of oils for the surface coating industry. We are pioneer in this field and most of the paint and printing Ink Industry depend for their needs of vegetable oils from us due to our reliability and consistent performance over the number of years of quality product supply. We understand the need of the coating industry of oils better than any body due to our long association with the industry.

SAFETY, HEALTH & ENVIRONMENT

Responsibility is another commitment MPD endeavors to ensure. Its WCM directives already focus on building caring individuals, enhancing the organization as a whole. Among these are concentrations on environmental consciousness. Inline with our corporate values to participate in exercising environmental protection, The Company emphasizes its industrial environment to extend its duty to the nation and the world through the appropriate management of environmental issues. The Company is ISO14001, ISO9001 and Ohsas 18000 certified to internationally comply with recognized standards.

WIN WIN PARTNERSHIPS

- In line with our goal to create values, MPD's real challenge is in participating in the success of our customer and users of our products.
- We believe in free trade in compliance with the enacted nationals & international laws.
- We identify manage and minimize the risks attached to our products during their entire lifecycle. We share with our customers, suppliers and other party's complete information about our products.
- We look into our prospective partner's track record regarding safety, environment management health and sustainable development other than economic considerations.
- Our employees, customer, suppliers and share holders views are very important while taking decisions in our company.
- To have fairness to everybody, our employees shall not give and accept gifts that could compromise and raise doubts about the decisions made by either of the parties involved.
- Management is kept informed by employees for any act or incidents involving factory employee or factory associates which will adversely affect the image of the MPD or trust of the stake holders in MPD.

PEOPLE ORIENTED APPROACH

- AT MPD the employer employee relationship is based on openness, fairness and trust. This is the basis for a strong foundation. At MPD we encourage our employee to be competent reliable, empowered and responsive. Our human resource policy is based on the respect of employee and employer integrity.
- The investment in the development of knowledge and skills of our employees on a regular basis for long term resource enrichment is the basis for our training program.
- Our employees are involved in the development and achievement of our business objectives. We offer an atmosphere to stimulate openness and accountability.
- For personal development and growth of our employees we shall provide training, mentoring and opportunities to shoulder higher responsibility..
- Our promotional policy shall be fair and competitive with due recognition for performance.
- We respect and recognize our employee's right to organize themselves in order to achieve their common goals.
- Our aim is to create an accident and injury free work environment. We shall encourage our employees to play a positive role in identifying & rectifying unsafe conditions and practices.
- We do our utmost to prevent the occurrence of occupational illness and health problems associated with the company's activities.
- Child labour and forced labour is strictly prohibited in MPD.
- There is no discrimination of any manner as regards to race, ethnic background gender, age, religion, sexual orientation or disability.

RESPONSIBLE CORPORATE CITIZENSHIP

- To protect our future we want our operations to be not only profitable but also socially acceptable.
- We are aware of our responsibility towards the environmental and we shall carry out our activities on the principle of sustainable development.
- Our production processes and products are guided by our commitment to promoting safety. Our focus shall be on developing new technologies, taking note of views of stake holder. As per our guidelines of transparency and openness, our customers and general public shall have necessary information's about our products and production processes.
- Improving process efficiency conservation of raw material, environment & energy are our thrust areas
- We shall regularly evaluate and improve the working methods, production process, products and services so that they are safe and acceptable from the point of view of our employees, our customers, the public at the large and the environment.
- We shall abide by the laws and regulations that are in force.
- We at MPD shall prohibit seeking influence on political decision making process by granting favors or giving gifts. trust of the stake holders in MPD.
- Serving employees and residents living nearby during emergency situation like natural disasters & public disturbances will be our priority. We shall encourage and train our employees to be more cultured and civilized.
- Our employees are to avoid a conflict of interest amongst their official functions and on behalf of the company and their conduct as private citizens that might compromise their integrity in their official capacity or compromise the integrity of the company.

MARKETING NETWORK

- With exports to various countries world wide, MPD is very active in development of new products to suit the requirements of valued customers. It is MPD'S moral responsibility towards the society & community to be it's integral part. We are aware that it is necessary for our success to be accepted as a part of society.
- We are continuously making resins as per customers needs in our R&D we focus on the on the applications on needs of our customer & then jointly develop product to suit their application. Our R&D team is very focused on giving economical solutions to every need of our customers.
- We focus enthusiastic on customer service prompt response & minimum lead time so that our customers have to keep minimum inventories.
- We have a fully developed marketing network through our marketing staff, agents and various offices across the country and strategic allainces around the world.

QUALITY POLICY

MPD's wants to achieve customer satisfaction by supplying product of quality more than customer's expectation through continual improvement of quality management system.

ENVIRONMENTAL POLICY

MPD is committed to continually improve environmental performance by -

- Complying with applicable environmental laws and regulations,
- Conserving material and energy resources.
- Minimising rework and reducing generation of waste.
- Ensuring proper disposal of waste.
- Better house keeping and adopting safer work methods.
- Creating awareness amongst all employees on environmental issue.
