

## Methyl Ester Regular

### Description

EFA 3301 Methyl Ester regular is the slightly yellow liquid ester prepared from C16- and C18- saturated and C18-unsaturated fatty acids and methyl alcohol.

### Suggested uses

Emolient Skin Conditioning agent  
Emulsifiers Manufacturing  
Surfactants Manufacturing  
Metal cleaning Solvent  
Oil spill Clean up  
Cutting oil emulsions  
Asphalt release agent  
Inkjet printing solvents  
Paint Removers  
Adhesives

### EFA 3301 Typical Physical and Chemical Properties

Colour (Gardner) max.	4
Iodine Value Wij's method min.	125
Acid value	1
Specific Gravity 25 C	0.86
Saponification Value	190
Appearance	Water white Liquid
Odour	Mild Characteristic Fatty/bean

### Packing Codes

PAC 0100 Bulk Tankers Stainless Steel  
PAC 0011 Isotank  
PAC 0012 Flexitanks.  
PAC 0110 HDPE closed head drums 190 Kgs net.  
PAC 0410 Second Hand HDPE closed head drums 190 Kg
