

Soybean oil fatty acid

Description

FAT 3325 is a Commercial soybean oil fatty acid. Its major fatty acid content is linoleic fatty acid. It has very low saturated fatty acids and good iodine value.

Typical fatty acid composition

Palmitic Fatty acid	18.00%
Stearic Fatty Acid	6.00%
Oleic Fatty Acid	33.00%
Linoleic Acid	40.00%
Linolenic fatty acid	3.00%

Suggested uses

Fast Drying Alkyd Resin

FAT 3328 Typical Physical and Chemical Properties	
Colour (Gardner) Maximum.	4
Iodine Value Wij's Minimum	110 - 125
Acid value	199 - 204
Titre C	24 - 27
Saponification Value	195 - 205
Unsaponification Value % Max	1
Saturated Fatty Acid % Max	24
Unsat. fatty acid % Minimum	76
Unsat. fatty acid % Minimum	40
Major fatty acid % Minimum	Linoleic

Packing Codes

PAC 0100 Bulk Tankers Stainless Steel

PAC 0011 Isotank

PAC 0012 Flexitanks.

PAC 0110 HDPE closed head drums 190 Kgs net.

PAC 0410 Second Hand HDPE closed head drums 190 Kg
